Each restriction removed tends to create greater interest and means gradual preparations for the unrestricted market later on. The notice that the British moratorium will come to a partial end on Oct. 4 and end com MANHATTAN BRIDGE CAR pletely on Nov. 4 has caused . rise in foreign exchange, as there was a rush to cover obligations.

However, the raising of the gold pool of \$100,000,000 to pay off America's balance to Europe, together with increased exports of foodstuffs, will create a credit balance and bring foreign exchange rates down to a normal basis. This must be accomplished to put the banking interests in a position to take back some proportion of American securities that will be forced for sale from the foreign estates and agencies which hold the bulk of an estimated tal of at least \$1,060,000,000. The warring nations will have to raise large sums, and ourchase money to some extent will ome from the forced sale of Amercan securities.

The early opening of the new Federal Reserve banks will be a big step in giving aid to the banks when funds are withdrawn from the cities for crop moving purposes, causing high interest rates and disturbing business by the shortage of loanable funds.

The New York City notes have risen in price, showing a demand exists for good investments at the higher interest rate.

Money being worth more will affect the prices of securities returning lower rates.

The Curb Market Association of Brokers has appointed a special committee of five, headed by C. B. Coady, to protest to the New York Stock Exchange against the present method of dealing in unlisted securities.

The outside brokers contend that trades in unlisted securities made above the prices of July 30 should not be submitted to the scrutiny of a special committee on the ground that it is unnecessary, as such sales do not peopardize the market. Only sales on which concessions below the closing price are made should require the consideration of a committee, they contend.

# CATHOLICS WILL ENTER PROTEST TO **WILSON ON MEXICO**

Oppose Recognition of Government That Does Not Guarantee Religious Liberty.

BALTIMORE, Sept. 29 .- Following conference to-day with Cardinal Gibbons, Bishops in attendance at the convention of the American Federation of Catholic Societies adopted a report protesting against the recognition by the United States of any government in Mexico that does not guarantee religious liberty.

This report was later adopted by the convention and it was decided to send a delegation to Washington this afternoon to lay the whole matter of alleged atrocities upon Catholics in Mexico before President Wilson

The text of the resolution was not given out because the delegates decided that the paper should first be in the hands of the President before being given publicity. It was prepared by Bishops Joseph Schrembs of Toledo, O.; J. A. McFaull of Trenton, N. J. and Rev Richard Tierney, S. J., an authority on Mexican conditions,
